EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas P. Mueller on 8/2/04.

The application has been amended as follows:

4. (currently amended) A high-frequency semiconductor device comprising: a first ceramic substrate having a circuit pattern; a second ceramic substrate on which semiconductor elements are mounted; and a composite resin material layer that buries the semiconductor elements and is provided and vertically aligned between the first ceramic substrate and the second ceramic substrate; wherein the composite resin material layer is formed by a composite resin material including an epoxy resin and an inorganic filler material, interlayer connector structures in which a conducting resin material has been filled are formed in the composite resin material layer, and the circuit pattern of the first ceramic substrate and a circuit pattern of the second ceramic substrate are electrically connected via the interlayer connector structures.

Cancel claims 1-3, which were canceled in the filing of the divisional and cancel claim 8.

Art Unit: 2826

The following is an examiner's statement of reasons for allowance:

The prior art teaches semiconductor elements between ceramic substrates, with respect to a linear line in an angular direction which defines the term between, with a filler material between and an interlayer electrically conductive connector but the prior art does not teach the above teachings with the addition of the semiconductor elements being vertically aligned and between the ceramic substrates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 4-7 are allowed.
